## Yugoslavia Severs Relations With Chile

(BULLETIN)

BELGRADE, Oct. 11.—(INS)—Yugoslavia severed diplomatic relations with Chile today as a result of the expulsion from Chile of two Yugoslav diplomats.

The break was made by Premier Marshall Tito's government three days after the two Yugoslavs were ousted on charges of acting against the national interests of Chile.

A communique by the ministry of foreign affairs charged that the Chilean ouster of its diplomats was an insult.

The communique declared further that the expulsions were influenced by "other states."

### Requested To Leave

The Yugoslav diplomats requested to leave Chile are Andres Cunja, chargé d'affaires at Santiago, and Dalibor Jakasa, secretary of the Yugoslav legation at Buenos Aires.

Both diplomats were accused by Chile of influencing work stoppage in that country and of engaging in activities detrimental to security of the western hemisphere.

Chile linked the activities of these men directly to the newly

Government Pushes Nationwide Program For Getting Food Aid For Europe

### DRIVE NEARS END OF FIRST WEEK

By WILLIAM UMSTEAD  
(U. S. Staff Correspondent)

WASHINGTON, Oct. 11.—The government intensified its food-saving drive today after officials warned that heavy feeding of grain to livestock offset a slight improvement in the nation's corn crop.

Secretary of Agriculture Anderson revealed that a rapid disappearance of carryover corn stocks in the past three months wiped out the 55-million bushel improvement in the 1947 crop reported by his department.

### Near End Of First Week

The food-saving drive neared the end of its first week with mixed response throughout the nation to the appeal for cooperation by the public, farmers, and industry.

MEADVILLE, Pa., Oct. 11.—(INS)—A railroad conductor today was credited with saving 30 guests from possible injuries when a fire swept the New Gable Hotel in Meadville.

Rav Kellogg, of Lakewood, N. Y., roused the guests, most of them employees of the Erie railroad, when he was awakened by a thick black smoke last night. He placed a handkerchief over his mouth and nose and banged on the doors until all guests vacated the hotel, firemen reported.

Fire Chief Charles Scalenberger said the fire started from a defective coal stove in a shoe repair shop located in the building. Damage was estimated at \$20,900.

## Ask Revamping Of Food Program For Aid Of Europe

Two Senators Ask Change In Plan To Give Relief With Wheat Alone

By FRANK B. ALLEN  
(U. S. Staff Correspondent)

WASHINGTON, Oct. 11.—Two Republican Senators today asked food conservation chief Charles Luckman to revamp his plan of trying to relieve European hunger with wheat alone.

Sens. Cain (R) Wash., and Ferguson (R) Mich., urged a diversification of food relief shipments on grounds that a broader plan, even if it cost more in money, would cause less dislocation to the American economy.

Their proposal came after Luckman reportedly admitted in a conference with GOP Senators that "some people are going to get hurt" in the administration's all-out effort to conserve wheat at the expense of other foodstuffs.

A woman who refused to give police her name said she had seen the attractive red-haired girl in an automobile several hours before the body was discovered.

The new twist came shortly after homicide detectives said the girl's death was "definitely a suicide."

Miss Seel's clothing was scattered along the river bank. Her purse was found floating a mile downstream.

(U. S. Staff Correspondent)

SAN FRANCISCO, Oct. 11.—(INS)—Six bronze caskets, bearing silent representatives of the 300,000 Americans who lost their lives in World War II, lie in state in San Francisco's City Hall today.

## Congressmen On European Tour Split On Findings

WASHINGTON, Oct. 11.—(INS)—The special 18-member committee sent by the house to survey economic conditions in Europe was reported today to be badly split over its findings.

Indications were that the division would cross party lines and that the group headed by Rep. Hatcher (R) Mass., would be unable to reach a unanimous agreement.

Rep. Eaton (R) N. J., chairman of the house foreign affairs committee and nominal head of the special group, said he anticipated both majority and minority reports would be filed.

Members were generally non-committal when asked to state whether their intensive study of European conditions led them to believe a special session of congress was necessary to appropriate stop-gap aid for western Europe.

## Guilty Conscience Sends Cincinnati Girl To Life Term On Murder Charge

CINCINNATI, O., Oct. 11.—(INS)—A guilty conscience landed a 23-year-old Cincinnati girl in prison for the remainder of her life today for planning the murder of her aging lover as a means of getting rid of her father.

Virginia Gibbs had been completely free of suspicion in the fatal shooting of Henry F. Smith, 61, for which her father, Charles Gibbs, 57, had been arrested and sent to the Lima State Hospital for Criminal Insane.

Couldn't Rest  
But Virginia couldn't rest, couldn't eat, couldn't sleep.

She was happy, in a sordid, macabre sort of way, on that September day in 1945 when her father blasted the life from Smith in a side-street hotel. But as each month passed, her burden grew heavier on her soul.

Her once-plump face lengthened, her eyes grew haunted. Finally, on September 13—just two years and 10 days from the date of the slaying—she could stand it no longer. She walked into police headquarters and surrendered to Detective Chief Clem Merz.

Plotted Smith's Death

## U. N. Partition Proposal Gets Support Of U. S.

Some Amendments And Modifications In Majority Plan Cited As Necessary

### STATEMENT MADE FOR SEC. MARSHALL

By PIERRE J. HUSS  
(U. S. Staff Correspondent)

LAKE SUCCESS, N. Y., Oct. 11.—The United States announced her support in the United Nations today of the U. N. majority plan for the partitioning of Palestine into individual Arab and Jewish states.

The long and carefully guarded secret of the United States position on the Holy Land was betokened in a formal pronouncement before the 57-nation Palestine committee by U. S. representative Herschel V. Johnson at the request of Secretary of State Marshall.

Johnson accompanied his announcement that the United States endorses partitioning with approval of Jewish immigration as provided for in the U. N. measure.

He declared that "certain amendments and modifications" in the majority plan, among them territorial changes in favor of the Arabs, are necessary.

U. S. Will Participate  
Johnson said the United States is willing to participate in a United Nations program to carry out the majority plan, including financing and enforcement.

The latter, he added cautiously, "might require the establishment of a special constabulary or police force recruited on a volunteer basis by the United Nations. We do not refer to the possibility of violations by any member of its obligations to refrain in its international relations from the threat or use of force. We assume that there will be charter observance."

## New Record For Births Of Twins

Three Sets Of Twins Born At New Castle Hospital Within Week

Within a period of one week, three sets of twins were born at the New Castle hospital, setting a record which has never occurred before in the history of the hospital.

To be sure, there have been many many twins born at the hospital—and even triplets for that matter, but this past week a record of three sets of twins in one week was established for the first time.

Proud parents of the twins, who are receiving much publicity and attention are:

Mr. and Mrs. James Hannah, 1704 1/2 Hamilton street, twin son and daughter, on Saturday, October 4. On Tuesday, October 7, twin son and daughter were born to Mr. and Mrs. Max Kadance, of 704 Harbor street. And this morning, Saturday, October 11, twin sons were born to Mr. and Mrs. Joseph Oleary, of Wampum.

The mothers and their infants are "doing nicely," the hospital reports. Naturally the twins are oblivious to the clamor they've created at the hospital.

Well we didn't win, fact we nearly lost, but we managed to get a tie, but the sun still shines and the plants still grow, and the stars are still in the sky. And life goes on at its normal pace, and most things seem just the same, so maybe it isn't important at that, the fact that we tied a game. There'll be other days and there are other games, and other chances to win, so let's take last night in a normal stride, let's take the score with a grin. For it isn't who won that's important my friend, it's only how did they play, and the kids fought hard but they couldn't lick Fate, and it's seventy-two today.

—not because she had anything against Smith, but because in him she saw the means of getting rid of her father—"for good."

She told Merz how she hated her parent, her home life—all the sordid details. She related how she went to Chicago, where her father had moved, and told him of her alleged affair with Smith, how he had given her money, what the gifts implied. Together they plotted Smith's death.

"Dad knew Henry was giving me money," she related in her statement. "He was the only person he hated enough to kill. I didn't have to urge him much to kill Mr. Smith."

**Gets Life Sentence**

"I wanted to get rid of my father, not Smith. Father was so mean to mother and I and he beat us. I knew if he got into trouble they would put him away for good, so I plotted to have him kill Smith."

The wheels of justice then began to grind. Virginia was charged, indicted, on second degree murder charges. Then, dry-eyed and silent, she stood in the somber court room and heard Judge Otis H. Hess sentence her to life in the Maryland Women's Reformatory.

## FOOD SAVING PLANS BEING INTENSIFIED

Tuesdays and eggless and poultry-less Thursdays. Early reports showed scattered opposition to this phase of the campaign.

Food conservation officials were confident, however, that cooperation in observing the days of abstinence would increase next week after the public has had time to put the program into effect.

Meanwhile, the reported rift between Secretary of Agriculture Anderson and Charles Luckman, chairman of the Citizens' Food Committee, was healed with Anderson pledging 100 percent support for Luckman's program.

**Some Suggestions**

Eight Republican senators who met with Anderson and Luckman gave a restrained endorsement to the food-saving program but suggested that European countries should take some of the nation's more costly surplus food as well as wheat.

Sens. Morse (R) Ore., and Thye (R) Minn., were reported to have declared at the meeting that large surpluses of poultry are in storage and should be utilized to save other foods.

GOP legislators who conferred with the food program leaders emphasized in their discussions the impacts on the liquor industry, which Luckman wants to shutdown for 60 days.

Chilean police disclosed that several shots were fired into the Soviet embassy at Santiago from a passing automobile on Thursday night.

The blasts ripped through the embassy's shutters, but there were no casualties.

event of British withdrawal, was believed due in some degree to expectation that a Trans-Jordan's powerful Arab Legion might seize positions of advantage.

Part of the Legion already is stationed in Palestine, and some Arab quarters suggested that the forces of King Abdullah might move to occupy important points with the aim of ultimately creating a greater Syria.

King Abdullah's scheme for a greater Syria has kept the leader of Trans-Jordan and the governments of Syria, Lebanon and Saudi Arabia at loggerheads for a long time.

The fear that King Abdullah might act independently under the guise of joining other Arab states in cordoning off Palestine was believed one of the reasons for the hurried airplane visit to Amman, capital of Trans-Jordan, by the secretary general of the Arab League.

**Luckman Adamant**

Cain, Ferguson and other GOP Senators said that Luckman was adamant toward any changes in the program. They said he answered some criticisms by saying that as "a private citizen I agree with you" but that as conservation chairman he has the single duty of saving wheat.

One Senator said that Anderson disclosed that he is trying to get the State Department to insist that the recipient countries accept a diversified list of food products instead of wheat alone.

Cain also challenged the one-export policy. He declared that it has grown out of the dollar shortage of foreign countries. They get more calories of food for each dollar than in any other product.

He declared:  
**Rests With Palestine People**

"In the final analysis the problem of making any solution work with the people of Palestine. If new political institutions are to endure, they must provide for early assumption by the people themselves of the responsibility for their own domestic order."

"Acts of violence against constituted authority and against rival elements of the local population have appeared in Palestine over a period of many years and have greatly increased the difficulties of finding a workable solution to this complex problem."

"Certain elements have resorted to force and terror to obtain their own particular aims. Obviously, this violence must cease if independence is to be more than an empty phrase in the Holy Land."

**Defines U. S. Position**  
Johnson defined the United States position on the partitioning plan in the following words:

"The United States delegation supports the basic principles of the unanimous recommendations and the majority plan which provides for partitioning and immigration."

"It is of the opinion, however, that certain amendments and modifications would have to be made in the majority plan in order more accurately to give effect to the principles on which that plan is based."

"My delegation believes that certain geographical modifications must be made. For example, Jaffa should be included in the Arab state because it is predominantly an Arab city."

**Suggestions Made**  
"My delegation suggests that the general assembly may wish to provide that all the inhabitants of Palestine, regardless of citizenship or place of residence, be guaranteed access to ports and to water and power facilities on a non-discriminatory basis."

"It is suggested that the constitution guarantee equal economic opportunity, be provided for Arabs and Jews alike, and that the powers of the joint economic board be strengthened."

"Any solution which this committee recommends should not only be just, but also workable and of a nature to command the approval of world opinion."

Johnson also said:  
"It may be recalled that as a result of the first world war, a large area of the near east, including Palestine, was liberated and a number of states gained their independence."

**U. S. Responsibility**  
"The United States, having contributed its blood and resources to the winning of the war, felt that it could not divest itself of a certain responsibility for the manner in which the freed territories were disposed of, or for the fate of the peoples liberated at that time."

"It took the position that these peoples should be prepared for self-government and also that a national home for the Jews should be established in Palestine."

"The United States government has subsequently had long and friendly relations with the independent states which were created in the near east and is happy to note that most of them are members of the United Nations and have representatives present at this meeting."

Johnson told the committee:  
"The United States delegation feels that the urgency of the problem is so great that the general assembly must recommend a solution at this session."

In conclusion, Johnson proposed that a sub-committee be formed to study the details of a program to be recommended on Palestine to the general assembly.

THE HAGUE, Oct. 11.—(INS)—Queen Wilhelmina of the Netherlands issued a royal decree today turning over her duties to Crown Princess Juliana as regent from Oct. 14 to Dec. 1.

Wilhelmina is expected to retire to her summer palace, Het Loo, after she relinquishes her royal duties next Tuesday and rest from the extreme fatigue brought on by her heavy responsibilities.

Grave concern was felt for the 67-year-old queen's health a week ago when a palace communique first announced that she planned to retire temporarily.

## Subway Conductors In Paris On Strike

PARIS, Oct. 11.—(INS)—Parisian subway riders had to walk to work today or find other means of conveyance when a strike of conductors paralyzed subway services.

Only a few trains operated after 1200 conductors walked out to press a demand for an autonomous status from the Communist-dominated General Confederation of Labor Subway Union.

The conductors declared they would stay out until conferences are resumed on their request for union autonomy.

### U. S. Diplomacy Is Not Adequate

PARIS, France, Oct. 11.—The chief failure of American diplomacy in the two years since the end of the war stands out conspicuously at this moment when Europe is divided between east and west. It is primarily a failure to come into contact and to understand the political leaders on the left who are not attached to communism.

Far more might have been done to win these men over to the belief that the United States stands for true democracy and that no intervention in the affairs of another government is implied by American aid. Unfortunately, American diplomacy is not geared to such a task.

These leaders are for the most part socialists or social-democrats whose economic and political views closely parallel those of the labor leaders now in power in Great Britain. They abhor revolution and totalitarianism. They believe that socialism can be achieved by democratic means through the convictions of a majority of the people.

Fairly Important  
In Italy, leaders of this type representing minor parties are fairly important. Despite the years of Fascism, Italian socialism on the democratic British model had deep roots that have been revived since the overthrow of Mussolini. The non-Communist left had considerable strength here in France.

These forces in Europe have tended in general in the past two years to drift toward communism. In Italy, Pietro Nenni has led the majority of the Socialist party into a union with the Communist party. He told me in an interview in Rome that he felt compelled to take this step in order to try to save his party from obliteration. If he had not taken it, his following would have gone over to communism, feeling there was no alternative.

At a critical moment, of course, when the Communists were appealing for a united front of the left to oust the DeGasper government, Giuseppe Saragat, leader of the Right Wing Socialists, threw in his lot with the United States and the Marshall plan. While he has 51 seats in the parliament, there seems to be considerable doubt as to the extent of Saragat's popular following.

Follows British Pattern  
Failure to win over the moderate left is not so much the fault of individuals. The American diplomatic approach following the early British pattern, simply does not cover a sufficient range to take in politicians and political parties on the periphery of power.

In the tradition of the diplomacy of the past, all power was centered in the government—actually in the king or in the king's mistress. The diplomat was a personal representative from one monarch to another and, therefore, his whole horizon was bounded by the court and the little court circle with its intrigues and conspiracies.

The British appear to have done far more than we have to break away from this outmoded tradition. When he was foreign secretary, Anthony Eden initiated drastic changes. While the hand of tradition still rests heavily on that sacred precinct, the light of the present-day world has begun to filter into the foreign office.

American embassies and legations now have labor attaches who specialize in reporting on labor problems. They seem for the most part to be able and alert with a broad knowledge of their field. But they work within the confines of a job with definite bureaucratic limitations. Those limits do not include political contact or political reporting.

The labor attaché knows that he may get his fingers burned if he oversteps the limits of his job. So he stays within bounds even though he may be aware of a vast field unexplored and unrelated to American interests.

**RESPECT**  
Some people say nowadays that we have lost the sense of respect. They say that there is no respect for law or age or even the rules of the game.

Perhaps this is nothing new. There is a story in the Bible about some children who yelled "Go up, Old Baldhead!" It tells what happened to the children, too.

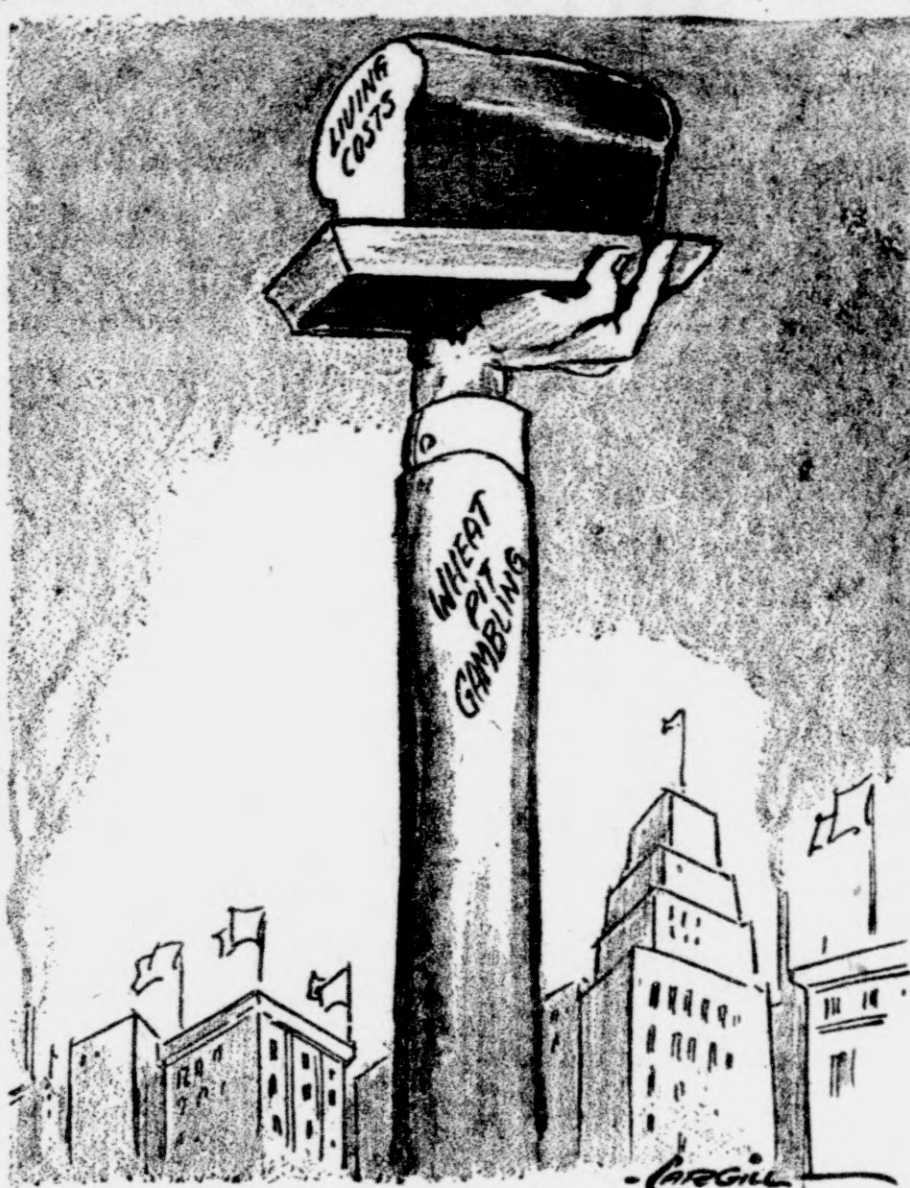

Old people should be worthy of respect. It is pretty tough on a young fellow to try to respect an old reprobate who hasn't much but gray hair in his favor.

Take a trip out to Flaherty Field and find out whether there is any respect for the rules of the game.

### COLUMBUS TRIP TIMELY TABLE TOPIC

It should make good table conversation in the family of growing children today, to talk about Columbus.

He was 41 years old when he discovered America October 12, 1492—455 years ago. He made four voyages to the new world. On his return on the second voyage he contracted arthritis from which he seems to have suffered long. He lived only 55 years, a pretty long life in those times.

He had at least two brothers and one sister. He was a well-built man of more than average height "but neither fat nor thin." He had blue eyes and light complexion "tending to bright-red." His beard and hair were red "but soon turned gray from his labors."

### A Religious Person

He hated cursing and swearing. He was very religious. When he had to write anything, he would not try his pen without first writing these words: "Jesus cum Maria sit nobis in via" (Jesus and Mary be with us on the way). Faithfully, he observed the fasts of the church, confessed and made communion often. It seems that his greatest purpose to make the first voyage was that he might convert the people of the Indies to Christianity. He supposed he had reached Japan when he found America.

Columbus and his men sailed in three small sailboats driven by the wind. He left Palos, Spain, early Friday morning, August 3, 1492 and landed at San Salvador October 12, 1492, the trip taking him how many days? The first steamboat was invented more than three hundred years later. The 90 men in the whole crew. Out of the 87 of them whose names are known, only four besides Columbus were not Spaniards. Not one was an Englishman, Irishman, or a Scandinavian. One was a Jew. He was taken along because he knew Hebrew and some Arabic.

The men had to provide their own clothing. Each man wore a red woolen stocking cap on his head, but had no other distinctive dress. Everyone went barefoot and let his beard grow. Not one of the men was really old and some of the boys were in their teens. There were no women or young children among them.

What They Ate  
What did they eat? About provisioning a ship Columbus wrote: "The third part of the breadstuff is good biscuit, well seasoned and not old or the major part will be wasted; a third part of salted flour, salted at the time of milling; and a third part of wheat. Further, there will be wanted salt, meat, oil, vinegar, cheese, chick-peas, lentils, beans, salt fish and (Continued on Page Seven)

### What is important? What matters?

Strange to say, the seemingly most unimportant things about which I write bring me the most mail.

Let me put down my opinions on world-shaking and weighty events and I get hardly a postcard from my readers, but when I write about bees and birds and flowers and stomachaches and domestic affairs, my mail is flooded with letters of approval and disapproval. Take, for instance, the subject of dunking.

Whether you or I dunk our donuts or our bread will never affect the world in the slightest.

Yet, since I have been telling you that I have become an honorary member of the National Dunking association, letters have come in daily from fellow dunkers.

"Your thesis on dunking struck a pleasant note on my 'heartstrings,'" writes a young lady from Hollywood. And the next paragraph of her letter explains, perhaps, why people seem to be so much more interested in the little things than in the big ones that go far beyond their own interests and their own concern.

"I have long shared the opinion that more levity is a much to be desired thing," she writes.

There is also an interesting letter from an 81-year-old lady in Los Angeles, who tells me that (Continued on Page Seven)

WASHINGTON — Gen. Lucius Clay, U. S. military governor in Germany: "The minute that western Europe has goods that eastern Europe wants, the demand for those goods is going to be so great that it will break down artificial barriers."

LAKE SUCCESS, N. Y.—Jose Arce of Argentina, deploring the east-west row in the United Nations: "Before we build any 40-story buildings in Manhattan, we'd better settle our disagreements here. It seems to me we're trying to build nothing but another tower of Babel."

CHICAGO—Sen. Taft (R) O.: "I have not believed Russia intends, or desires, a conquest by force of additional territory to that occupied during the war."

LAKE SUCCESS, N. Y.—Mrs. Wendell Willkie, widow of the Republican presidential candidate: "It looks like we're going to have two worlds now. But we will never have peace until the peoples of the world are friends."

## From Me To You

By MESEKALL

Problems seem to never cease . . . and today we are all concerned . . . at least some of the people are concerned . . . about the Presidential order, rather suggestion, that we the people of the United States conserve our food. The wheels are turning and ideas are jumping forward such as they always do when the "minds" get together.

Already problems have arisen and the "minds" have gone into a huddle and explained how you get around an oversight gracefully. The problem that arose when the food conservation program was announced was that each Thursday be poultryless . . . then some newspaper writer immediately explained that the main holidays this winter would fall on Thursday . . . there being hundreds and hundreds of turkeys, ducks, geese, and capons on the market for these gala days, the powers merely said in a few calm words something to this effect: each holiday which falls on a Thursday will be exempt from the poultryless ultimatum and the citizens will be requested to use the following Monday of each holiday in its place . . . simple, huh?

A problem that we have been unable to completely understand in our own mind is the idea that is meant by the food conservation program when they say that American people should purchase the cheaper cuts of beef in order to conserve . . . well, that would conserve on the price if you went out and bought a bucket full of neck bones and had them boiled up into soup, or whatever the tastiest dish would be for neck bones . . . and we can make our mouths water by reading recipes for braised oxtails . . . but if we use all these cheap cuts of beef, who is going to use the more expensive cuts?

Everyone knows that every beef slaughtered has what is termed the expensive cuts and the inexpensive cuts . . . again we say, if you and I eat the neck bones and etc., who will eat the sirloin steaks and standing rib roasts?

## Bible Thought

And he said, This will I do: I will pull down my barns, and build greater; and there will I bestow all my fruits and my goods. And I will say to my soul, Soul, thou hast much goods laid up for many years; take thine ease, eat, drink, and be merry. But God said unto him, Thou fool, this night thy soul shall be required of thee; then whose shall those things be which thou hast provided?—Luke 12:18, 19, 20.

## The World and the Mud Puddles

NO, NOT YET

Department of Commerce reports that America's per capita income in 1946 was more than double that of 1940 ought to help quiet the propaganda of depression which has been heard from certain quarters of late. According to the Department's figures, each man, woman and child in the United States last year had an income of Twelve Hundred Dollars. This is more than twice the Five Hundred Seventy-five Dollars of 1940 and exceeds even the peak year of 1945.

It does not follow, of course, that all our people shared equally this One Hundred Dollars per month income; there are still too many families with much lower incomes. But an average in excess of Three Thousand Dollars per family rather refutes the old baloney about the vast number of "ill-fed, ill-clad and underhoused" so dear to our political uplifters.

Might Have Gone Farther  
The Commerce Department might have gone a little farther and made some comparison of the Five Hundred Seventy-five Dollars income of 1940 with the Twelve Hundred Dollars income of 1946 from the standpoint of buying power. Mere money figures mean nothing except in the sense of what money can buy. Nevertheless, in spite of all the complaints about high prices, the 1946 income is a real gain over 1940; even if prices have advanced, incomes have advanced substantially more.

This huge boost in American incomes, incidentally, is another indication of the large revenues that can be expected by the government for the next fiscal year. It means that taxes could be materially reduced, while still leaving sufficient revenues to balance the budget and make a worth while payment on the federal debt.

Twelve Hundred Dollars a year for each of One Hundred Forty Million people represents quite a lot of wealth. Let's not go out of our way to hunt up arguments in favor of a depression.

### WOMAN RISES FOR OLDER WOMAN

Question: Recently at the home of a friend, I, being 30 years old, saw a being introduced to a woman of 60. Is this correct?

Answer: You should have risen unless the introduction was general—in a roomful of people. If your hostess brought her over to where you were seated to give you an individual introduction, you should have risen.

Question: My husband says that it is incorrect to lean against the back of a chair at the dinner table. Is this so?

Answer: It is never correct to give the impression of lounging. While you must not assume a rigid or uncomfortable position at the table, neither should you lean against the chair back.

Question: Is it necessary to have black-bordered visiting cards when one is in mourning?

Answer: No. This custom is fast dying out. While not incorrect, it simply isn't done very much nowadays.

Question: When I answer my telephone, is there any other form of greeting than "hello" which I think is somewhat silly?

Answer: "Hello" is the general answer in these parts. It might be silly, but it is, nevertheless, the most popular greeting. You might say, "The Smith residence," which to me sounds stilted.

Question: When presenting a man to a group of other men and women, how should I perform the introductions? That is, should I present him to each woman separately, then to each man?

Answer: Do not single out the women in the group and then go back and give the men's names. If the first member of the group is a woman, introduce the man to her, for instance, "Miss First of Group, Mr. New Arrival," then proceed with the other members in the order in which they are standing or seated.

Present your problems to Miss Markel who will promptly mail personal replies to questions from readers including stamped, self-addressed envelope.

## Snitch's Role Is Surprise

By PAUL GALLICO

You will probably be as surprised as I was to learn the important part played by the ordinary, common or garden variety of snitch the operation of one of the branches of our government, namely the collection of U. S. Customs at the port of entry. Under the Tariff Act, the government pays 25 per cent of moneys collected in duties, fines and penalties to informers who peach on returning U. S. travellers who think they can outsmart their Uncle Samuel by smuggling a chunk of square-cut ice through the lines in their overcoat pockets.

### "Advertises For Stool Pigeons"

Probably you were already aware of this morsel of bad news, but what I'll bet you didn't know is that there exists an outfit in New York which advertises in the foreign press for stool pigeons, promising them the full reward without deductions plus complete protection for turning in larcenous-minded travellers.

It is called the "Protective Bureau, Jewelers Vigilance Committee" with offices located at 17 West 45th Street, New York, and in the Paris Edition of the Herald Tribune it advertises as follows:

"HEAVY PENALTIES Await Jewel Smugglers—Smuggling jewelry, diamonds, pearls, precious stones, watches, etc., into the United States is dangerous. Rewards for information are large. Penalties are heavy. Under the prevailing Tariff Act, 25 per cent of the net amount recovered by the U. S. Government, but not over \$50,000 in any case, may be paid to any person who furnishes original information which leads to the recovery of any duties withheld, or any fine, penalty or forfeiture incurred.

"FULL REWARD—information relating to the smuggling of jewelry may be sent by letter cable or wireless to this office. The full reward without any deduction, will be paid the person furnishing the information." His name will not be divulged to anyone. All information will be filed in the name of this organization.

### Not Going Into Moral Problems

Well, we will not go into the moral problems propounded here. In my younger days at school I was taught that a snitch was a low and despicable fellow, looked down on a string and persecuted by teachers. However, many things I have been taught were wrong in school I later found to be common practice in the world of finance, business and society. Also I must mark down a party who tries to swindle the government of the country that gave him birth, shelter and opportunity as a fellow working himself up to be a Grade A louse. So it seems to wind up six of one and half dozen of the other in this unsavory business.

But in view of this paid advertisement tipping off potential informers to the glad news of squeal money to be had and egging them on to tout that whistle, (all in the interest of American business, since American jewelers lose a job every time someone lugs in a tiara or emerald choker from the Rue de la Paix or a peck of tickers from Switzerland) I can't help but feel that the things work and that a citizen is just a plain sap, not to mention sucker, if he tries to wait, anything worth more than a dollar and a half past the bugles of the boys in blue or Pier 90, where the big Queens land.

### And Here's How It Works

Let us say that Big Joe Glutz, the retired chestnut vender and his Missus are in Paris. The Missus becomes blinded by about twenty-five grand worth of glaze' carbon on a string and persuades Joseph to cough. Glutz will leave that amount of cash with some frog jeweler making about 1,000 per cent profit, but paying the duty on it to protect the home industry' gripes this soul of honor, so he tells the old Lady, "Just keep yap buttoned and let me handle this. They don't frisk you on the pier. I'll just slip it in my hip pocket and nobody will be any the wiser."

Oh, no? There is only Armand, Pierre, Jean, Mimi, and Albert, salesmen, cashier, auditor, wrapper, buyer, etc. plus sundry others on the staff of the jewelry house that sold Glutz the bauble. One or all will have read the tempting message from the Jewelers Vigilance Committee. It's worth an airmail stamp, isn't it?

### And Then The Payoff

So the Guardian on the Pier asks Mr. Glutz if he has anything to declare. "Who? Me?" says Joe innocently. "Just a couple of bottles of smell water and some shirts I bought myself."

And the Customs guy is just loaded for him. "Okay, Brother. Now we'll have a look at that diamond necklace you bought on August 18th, at three o'clock in the afternoon at the Whatsis shop in the Rue Poopsy-Doopsy, for twenty-five grand, with the pearl and platinum clasp."

If Joe had been honest and declared, the snitch would have been out of the price of a stamp. This way, he, she, or they collect a packet because by the time our Uncle S. has finished slapping duties, fines, penalties and assessments brother Joseph is right back where he started from financially.

## In View Of The News

By J. C. Ostreicher, INS Foreign Director

The first step toward active inter-American cooperation in combating Moscow's new international organization was seen today in expulsion of two communist agitators by the government of Chile.

In line with policies of the American state department that were framed to ensure there will be no more "boring from within", Chilean officials deported two Yugoslav diplomatic employees accused of working against the country's national interests.

The incident recalled a proposal recently made by Representative Parnell Thomas of New Jersey that has aroused huge interest throughout the Latin American nations.

**Urges Conference**  
Thomas suggested that the United States call a conference of all western hemisphere nations as a direct answer to Soviet Russia's loudly-proclaimed and diplomatic offensive against America.

He proposed that the legislatures of all countries on this side of the Atlantic authorize delegations to confer with the United States on a uniform set of laws to deal with persons and organizations suspected of subversive intentions.

It is quite probable that Thomas had in mind the undeniable existence of Nazi Fascist organizations in Latin America during the second world war. The purpose presumably would be to guard against dangerous growth of similar "cells" should difficulties of the present deteriorate beyond hope of remedy.

The wisdom of the communists, from their own point of view, in reviving a world organization in opposition to the Marshall plan is still being debated widely. Foreign Minister Georges Bidault of France said on his departure for Paris from New York that the Soviet move was a "blunder". He remained convinced that it would not carry the rank and file of the French people into the arms of communism.

But he emphasized, as he has done frequently, that vast financial assistance from the United States is a prime essential if democracy is to be preserved.

With regard to the Thomas proposal, which inescapably is tied up with the European situation, there seems little doubt that Latin America would cooperate should the measure be drafted in a formal fashion.

Brazil has acted strongly against communism as a potential threat to the nation's unity, and there even have been reports that President Enrique Gaspar Dutra might propose severance of diplomatic relations with Moscow.

Argentina under President Peron certainly is a pledged anti-Red. All the others have subscribed with enthusiasm to Washington's policies on hemisphere defense, solidarity and assistance to Europe. The "new comintern", as it has been rightly or wrongly called, may yet prove to be a boomerang against itself.

The story is told of how a Jap admiral talked himself into execution. Unfortunately, the system does not hold good for after-dinner speakers.—St. Louis Post-Dispatch.

## Trinity Episcopal Yearly Ingathering

In gratitude for bountiful harvests there will be a Harvest Home Festival at Trinity Episcopal church on Sunday, October 12 at 11 o'clock.

Members and friends of the church eagerly look forward to the service which has been an annual custom of the congregation for many years. The church is especially decorated for the occasion with sheaves of wheat, corn, other grains and fruits.

At this time an ingathering of food stuffs and other offerings is taken for St. Barnabas Home at North East, Pa. This home opens its doors to men and boys who are incurable and poverty stricken. There are no limitations as to age, creed, or nationality. Brother William who is in charge of the home will be the speaker at the morning service on Sunday.

A fast start just as the light changes is a good way to pick off pedestrians who haven't yet reached the curb. If you are proficient you may even catch one at the other side of the intersection. Then people will call you a really dangerous driver.

she has been dunking since she was five years old.

"My mother tried to break me of the habit," she says.

"We had mostly bread and butter and cheese to eat. Butter cost 20 cents a pound then and cheese about 10 cents.

"I dunked the bread in my tea and ate the cheese.

"Mother told me if I continued to dunk she would take away the butter and cheese. But I kept on dunking. I always dunked and I dunk now."

There is also a "P.S." to the letter:

"Mother did not take away my butter and cheese."

(Of course not, mothers never do.)

By the way, when I went to work this morning two very nice ladies were standing on the station platform waiting for the train. They had apparently been week-end visitors in Connecticut.

One of them pointed to a headline in the morning paper.

"Another Fight Expected at U.N. Session," it said.

"Isn't it awful?" she remarked.

"I'm not interested in the U.N.," was the answer. "The only thing that is on my mind this morning is my refrigerator at home. I started defrosting it on Friday and forgot all about it when I left. I can just imagine the mess I'll find when I get home."

No wonder I get so many letters when I write about piffle. Fights at the U.N.? High taxes? Possible war?

What does it all matter when your refrigerator is overflowing and your kitchen a mess?

## WASHINGTON CALLING

(Continued from Page Four)

clearly what a tragic mistake it was for Congress to curtail so drastically the United States information service. Information officers were developing relationships outside the sphere of government. Editors of varying shades of political opinion were assured of American interest. Then abruptly this was chopped down almost to nothing.

Take the British example as a contrast. The British maintain information offices in a half dozen key provincial cities in France. The British themselves feel that the most important function of those offices is the opportunity they afford for Britishers with a knowledge of France to come in friendly contact with editors and politicians. This is a two-way street—knowledge is given and obtained.

The U. S. Information Service had offices in two cities outside Paris. They are now closed because of the shortsighted economy of the last Congress. A special congressional committee touring more than a dozen European capitals to explore this very question already has become convinced of the need for an expanded information service, according to Chairman Karl Mundt of South Dakota.

The entire horizon of American interest must be expanded. This is essential for greater understanding of the complex world in which we are living. It is also essential if we are to take the leadership implied in the Marshall plan.

## Will Dedicate Jackson Knolls

"Model Community" Project  
Being Developed In  
Mt. Jackson Area

### NEW DEVELOPMENT HAS GREAT APPEAL

Few childhood dreams come true, but one is coming true and has become a man's hobby, is beautiful Jackson Knolls, a model community, that is to be dedicated this evening.

Jackson Knolls, the dream of M. Dale Andrews, of Mt. Jackson, is a model community at Mt. Jackson, six miles from downtown New Castle. It is a 160-acre plot of wooded and scenic landscape laid out into an ideal community. It is situated so that no industrial or commercial projects can ever interfere with its purpose.

#### Planned For Years

Mr. Andrews has been planning a model community for a number of years consisting of a limited number of homes built into a park plan. That is, a series of large lots featuring supervised recreational facilities suitable for entire families, where by families of moderate means, by cooperating with certain ethics, may have environment and living conditions made better than average.

The realization of his dream came through the Andrews Realty Company, a Pennsylvania Corporation, organized in 1943. The purpose was to build homes for defense workers. The original purpose of this company has been fulfilled and now is embarking on a new enterprise.

Mr. Andrews, as president of the company, states that his company does not intend contracting all the homes to be built in Jackson Knolls. Arrangements can be made to purchase lots providing certain ethics are agreed upon and purchasers are willing to allow architectural supervision by the company.

#### Starts At Mt. Jackson

This new community starts at Mt. Jackson and extends down over a southern slope, crossing Hickory creek at the most beautiful section of the creek. The project has natural drainage, plenty of sunlight and the knolls are natural.

The plot is divided into units. Plot One, now being developed will have 47 homes and Plot Two will have 101 homes. The recreational development will be in Plot Two, along the creek bottom.

The project is planned to be completed during a period of from five to ten years, depending on public acceptance. The first year's work is done with 10 homes and 50 acres plotted into 50 lots. There are streets, utilities and planting provided. Two small lakes have been made by building dams at the base of natural springs. Plans are being made for additional development in 1948.

Mr. Andrews has been associated with the building industry here in Lawrence county since 1927. Prior to this he studied architecture and building at Carnegie Tech. He has traveled extensively studying all types of housing with a special interest in community planning.

The Andrews Realty Company with their grand opening of Jackson Knolls is dedicating the project for the purpose of realizing their ideals in community planning. Mr. Andrews declares that the company will not take any profits from this project. Any profits made through the sale of lots or homes by this company will be used to further improve Jackson Knolls.

## Children's Play Series To Open Here October 17

Children Of Federation Juniors  
To Appear With 'Hansel  
And Gretel' Cast

When the Pittsburgh Children's Theater opens its series of children's plays here under the auspices of the Federation Juniors, for the fourth consecutive year, on Friday evening, October 17, children of several members of the club will appear on the stage in various scenes of the dramatization of this familiar fairy story.

They are: Judith Johnson, daughter of Mr. and Mrs. John E. Johnson; Patricia and John Sowersby, twins of Mr. and Mrs. Francis S. Sowersby, and William Daugherty, son of Mr. and Mrs. Frank W. Daugherty.

"Hansel and Gretel" will be presented in the senior high school auditorium at 7:30 o'clock Friday evening and indications are that there will be a full house to welcome the Children's Theater players back to New Castle. Groups of children and adults from several nearby communities, such as New Wilmington, Mercer and Grove City are planning to attend.

For early comers the club committee in charge of arrangements has planned a half-hour "community sing" from 7 to 7:30 p. m. as musical entertainment for the children before curtain time. Miss Esther Gibbons will lead the singing and Mrs. Emma Gibbons Richards will play the piano accompaniment.

Mrs. Gust Santillippo is chairman of the children's play project for the Federation Juniors.

## Science Students Form Chemistry Club At College

NEW WILMINGTON, Oct. 11.—Twenty-one science students of Westminster college met last night to form a chemistry club in which the members will have the opportunity to visit nearby industries and to hear speakers lecture on chemistry and related subjects.

Temporary officers elected were: Harold J. Hassel, Sharon, president; Harry E. Gilbert, McKeesport, vice president; and Miss Patricia Johnson, Altoona, secretary.

treasurer. A constitutional committee will outline the objectives of the club and prepare a tentative program. The committee includes Howard E. Greenbaum, Farrell; Franklin J. Johnson, Ben Avon; Miss Marilyn Barthels, Smithton; and Miss Shirley Brandon, Ellwood City.

A contest will be held to decide a name for the club.

Some health authorities claim it is more or less injurious to one's health to indulge in mental work immediately after eating a meal, because of the fact that the blood is taken away from the abdominal organs to the brain and thus hinders the process of digestion.

## College Band Has Trouble Getting Proper Uniforms

NEW WILMINGTON, Oct. 11.—Westminster College students are enthusiastic about the kind of music their college band plays at football games but not all comments concerning the appearance of the band are favorable. However, Donald O. Cameron, band director, has two unbeatable reasons for the not-so-snappy appearance. Reason No. 1 is that the college has enough uniforms to supply the number of students now in the band but the uniforms were designed for men of pre-war specifications. Veterans who have re-

ported for the band this year are too big around the chest and shoulders as a result of their military training to wear the present suits.

Reason No. 2 is that the company which makes the suits states that it is impossible to provide replacements due to lack of materials.

### TRIAL IS BRIEF

PITTSBURGH, Oct. 11.—(INS)—Howard Wood, 44-year-old convicted Pittsburgh numbers writer, was expected to be sentenced today following one of the shortest jury trials in the history of Pittsburgh—26 minutes.

The trial included testimony of two officers, Wood's character witness and the summation by the defense attorney.

The boys of St. Paul's school, London, were at one time called "Paul's Pigeons."

Jackson Knolls is a community designed for home building, the type of home building that makes better living possible.

The restrictions in Jackson Knolls are only for the means of protecting the purpose of this project.

In the planning of this project we have incorporated in the costs of developing, clean and supervised recreational facilities for the entire community. There will be a ball park, tennis courts, swimming, fishing, riding stable, and throughout the entire plan numerous park areas for the enjoyment of all concerned.

We are dedicating Jackson Knolls, with this grand opening, for the purpose of home building. The Andrews Realty Company, a Pennsylvania Corporation, will use all of its capital and profits for this purpose. We mean by this statement that THERE WILL NOT BE ANY PROFITS TAKEN FROM THIS PROJECT BY THE ANDREWS REALTY COMPANY. After administrative and general expenses have been paid, all profits will be used for making better things for better living here in Jackson Knolls.

## How To Get to Jackson Knolls

## HOUSING vs HOMES

If men lived individually and collectively in a manner that would create peace of mind they would have less trouble with themselves and with each other.

Peace of mind is the profit from right living, and right living is done best from the nucleus of a well planned home.

It has been said that money is the root of all evil. I would suggest that money spent by man in payment for his home and the better conveniences that have been developed through our growing civilization, has brought peace of mind. Money spent otherwise often brings trouble.

Economists have advised that man could spend one-fourth of his income in buying a home but this is only a matter of sound economy and a general rule. I have noted among my clients that the man who starts his home with the largest obligation, generally produces more and becomes the most satisfied with the fruits of his production. My experience in home building has developed into two propositions. First, the housing of people, and second, the satisfaction gained from housing people. Money made from housing people does not always bring satisfaction.

House building is an industry. Home building is the profits of industry well spent.

## Band Program Boost Drive For Chest Fund Here

Football fans at Taggart stadium Friday night saw one of the most unique band spectacles they have ever witnessed. The senior high school band devoted its time to the Community Chest drive which opens next week and if the drive is as good as the band maneuvers, it will be over quickly.

The band marched on to the field accompanied by 84 representatives of the 12 beneficiary organizations of the chest. Each of the representatives carried a large white flag with the red feather upon it.

#### Huge Red Feather

Reaching midfield the band formed into a huge red feather and then the field lights went out. Red lights appeared in the cap of each bandsman and a medley of songs arranged for the chest by Director Joe F. Repligle followed. As the song of each organization was reached a representative of that organization stepped out and was flood lighted.

The field lights went on and the band swung into the "Red Feather" march. The twirlers accompanied the band music with a demonstration of twirling.

The Farrell band of 96 pieces under the direction of Francis Pat was about the best visiting band seen at Taggart stadium this summer. They had a fine balance of parts, their playing was together and their marching was excellent.

## Grove City WSCS District Meeting At Sharpsville

All-Day Meeting In Sharpsville  
Methodist Church Friday;  
Missionary Speaker

Grove City District of Erie Conference of the Women's Society of Christian Service of the Methodist church assembled Friday for its annual district meeting in the Greenville Methodist church, of which Rev. J. A. Galbraith is pastor.

Business during the all-day meeting was conducted by Mrs. R. A. Grandy of Sharpsville. Reports given included those of the departmental secretaries, one by Mrs. Quincy Davy, treasurer, of this city, and one by Mrs. Howard Courson of Parkers Landing.

Miss Elizabeth Dalby, who returned several months ago from the Belgian Congo and expects to go back to the missionary field in the spring, was a speaker. The meeting Friday was the fourth district meeting she has addressed, the others having been in Warren, Corry and New Bethlehem.

Musical highlight of the afternoon program was a group of vocal selections sung by a double quartet from the First Methodist church of this city under the direction of Mrs. James W. Moorehead. Their numbers were "Dedication", "Indian Dawn", "Zamecnik", and "The Prayer Perfect". Those who sang were Mrs. Martin Hornung, Mrs. John Henning, Mrs. Raymond Lutz, Mrs. John Dickerson, Mrs. Worrell Jones, Mrs. W. L. Beal, Mrs. Leonard Cramer, and Mrs. Moorehead.

Dr. Thomas Morris, new Grove City district superintendent, installed the new officers.

Devotionals were conducted in the morning by Mrs. R. R. McLean of Greenville, and in the afternoon by Mrs. F. S. McKnight of Franklin.

At noon, luncheon was served by the Greenville W.S.C.S. Officers of the Grove City district presented to Mrs. Carl Hart of New Wilmington, and to Mrs. J. F. Rentz, of New Castle, past presidents' pins.

Special guests who have attended the series of district meetings within the conference were Miss Minnie Armstrong, Erie conference vice president, and Mrs. Lawrence Hemenway, promotion secretary of Erie conference.

## Duff Elected To Succeed Paisley

SCRANTON, Pa., Oct. 11.—John D. Duff, Pittsburgh industrialist and church leader, was unanimously elected president of the Pennsylvania State Sabbath School Association at its annual convention in Elmbark church here Friday.

Mr. Duff succeeds Dr. Harry L. Paisley of Philadelphia, who has held the office since 1930. The Philadelphia man was named president emeritus.

Julian F. Ulmer, Pottsville, was re-elected recording secretary; Benjamin H. Wolfe of Harrisburg, a former vice president, was named treasurer.

Among vice presidents were: Mrs. Frank H. Steen, Belle Vernon; Lea H. McKay, Sharon; Senator Edward Martin, Washington; Andrew H. Phelps, Pittsburgh; and Murray C. Stewart, Homer City.

## Local Biographies

(Thirteenth of a Series)

DR. FRANK L. BURTON

Dr. Frank L. Burton, who has one of the most exacting jobs of the city as superintendent of public schools, has been in his present position since 1942, and has handled his high post in our educational system with adept administrative ability, tact, and the steady determination to get things done—quickly and efficiently.

Dr. Burton was born in Harlanburg, the son of J. Mansford Burton and Ella Dorcas Burton, and began his education there in the public schools.

He matriculated to Westminster prep and entered the college there, only to have his higher education interrupted by the first world war.

**Saw Action In France**  
Sailing with company "C," 315th field signal battalion of the 80th division, Dr. Burton arrived in Bordeaux, France, in 1918, and after about two weeks was sent to the front lines where he saw considerable action both at Metz and in the Argonne Forest. When the armistice was signed his outfit was outside Sedan.

His quest of a degree at Westminster was further interrupted by sporadic teaching stints at Harlanburg, Rose Point, Pulaski and Mt. Jackson, but he received his B. A. in 1920 and came to New Castle the same year, assuming the assistant principalship at senior high school.

**Goes To Ben Franklin**  
When Ben Franklin junior high was opened in 1922, he went there as its first principal, a post he held until promoted to city superintendent.

In the year 1928 Dr. Burton received his master's degree in education from the University of Pittsburgh.

Superintendent Burton is married to the former Irma Howell of Pittsburgh and is the father of two daughters—Mrs. Dorothy McEun of Pittsburgh and Elizabeth Ann, a senior at Westminster.

He is a member of the Rotary club, having served at one time as the organization's president, is a member of the Highland U. P. church and is also affiliated with the Pennsylvania State Education Association and the National Education Association.

**Oklahoma Uses State Turnpike As Road Model**

HARRISBURG, Oct. 11.—(INS)—Pennsylvania's \$71,000,000 turnpike reportedly was slated to set the pattern for an express highway in Oklahoma.

Officials of Oklahoma toured the 160-mile four-lane toll road that will ultimately stretch from border to border and told Gov. James H. Duff they would build a similar speedway.

"The Oklahoma representatives were tremendously impressed with the highway and are going back with the idea of building the kind of highway that we have here," the governor reported.

Preparations for an estimated 100-mile eastward extension that will bring the turnpike within 20 miles of Philadelphia were "proceeding ahead of schedule," Duff reported.

Studies of patients show that aches, pains, fatigue and lack of energy may come from emotions and attitudes, frequently aroused by marital or work difficulties.

### Having been elected at the September Primaries as the Democratic candidate for Mayor of New Castle . . .

I believe that the voters have the right to know something concerning my background, I was born in New Castle, Pa., on June 3, 1896, on the south side. I attended the Lincoln-Garfield and Home Street schools. At the age of 13 I went to work for J. M. Rae driving a grocery wagon, then to W. F. Gardners and Sons on Highland Avenue as a driver, also for Richard Long. I also worked for the Adams Express, and Wells Fargo. In 1917, I went to the Pennsylvania Railroad and I am now employed in the service of the company as a conductor.

I now reside on the East Side at 906 Marshall Avenue. I have in the past 14 years been active in the political affairs. I was chairman of the young Democrats and also a committeeman for the Democratic Party in the Fourth Ward for several years. ### SEEK TO IDENTIFY DISSECTED BODY

ST. PETERSBURG, Fla., Oct. 11 (INS)—Police pinned their hopes today on several human hairs to identify a woman whose dissected body was found in a burlap bag in Tampa Bay.

The announcement came as police revealed further evidence that the victim had been tortured.

They found in the bag a complete fingernail which they believed was wrenched from the woman's missing left hand.

The Maoris, the native New Zealand race, are Polynesians of high intelligence. Their forebears migrated from the Eastern Pacific several centuries ago. In March 31, 1940, they numbered 90,980.

# Farrell Stuns New Castle With 6-6 Tie To Knock Them From AA Race

## Last Second Pass Gains Locals Deadlock In Tilt As AA Hopes Are Smashed

Desperation Toss, Gribble To Gilmore, Gives 'Canes Lone Touchdown; Crowd Of 10,000 Sits Amazed As Steelers Pull Shocking AA Upset.

Darryl Zannuck, Cecil B. DeMille and other Hollywood movie producers could have taken a few lessons in dramatic finishes, if they had been among the 10,000 fans who last night at the stadium stood stunned as New Castle High tied Farrell 6-6, and as a result stepped right out of the Class AA conference picture.

Copying the zany finishes of the late so-called world series, the New Castle High "Red Hurricanes" with the hands of the clock running out of time pulled an almost sure-fire defeat out of the air with a Gene Gribble to Lou Gilmore pass for touchdown. Under the rules New Castle had a right to try for the extra point. Jack McCoy, the sure-footed specialist, missed it and the game was over.

Never has a more dejected New Castle team left the field. Their hopes of an undefeated and untied season ground into the grassy sod of the stadium. On the other side of the fence was the jubilation of the Farrell players and followers, the fans from Farrell literally mobbed the "Night Riders" and they deserved it.

**Punch Is Missing**  
It was a punchless New Castle team last night that carried the ball to the 2-yard line and lacked the steam to get it to the pay dirt section. Some attribute it to a "let down" after the gruelling Altoona battle last week, others to an inspired, hard fighting and fast Farrell team "away up for this one".

Farrell had a defense patterned after the "Rock of Gibraltar" and just as tough. The visitors seemed to know just what New Castle was going to do even before they did it. Nothing worked for New Castle, Farrell was in on top of the backs and broke up the plays before they could get under way.

**Passing Bogs Down**  
Outside of the final pass to Gilmore, young Gribble had a bad evening as far as heaving them was concerned. The New Castle line simply couldn't keep those small Farrells out of the New Castle backfield. There were mousetraps all over the place.

Farrell on the other hand had a young man out there, George Keryan by name, who looked like a great passer as he rifled passes all over the field, and with any kind of receivers would have given Farrell a big score. He did connect with a few and they were costly to New Castle. And besides throwing them, Keryan did a right good job of running the ball, and scored the Farrell touchdown in the final period from the 3-yard line.

**Very Little Solace**  
There is very little solace to a tied ball game as the apparently over-confident New Castle team found out. A mentally alert and physically perfect Farrell team made the difference last night.

To be sure New Castle had the most first downs, 8 to 5, but they don't pay off on first downs. New Castle had two reserves in at left tackle and left guard for the biggest part of the evening, but this shouldn't have made the difference, both Tommy Mangino and "Jumbo" Josephs played their new roles well. It was the New Castle line in general that failed to function as a unit. DiCola and Zeigler, both with injuries, entered the New Castle lineup late in the game but couldn't bolster the red and black defense.

**Farrell Tricky Shifters**  
It may have been the Notre Dame shift that had the New Castles worried. Anyway Farrell jumped away fast in the backfield and ran hard once they got the ball. Blocking was lacking for the most part on the New Castle team. Time and again Gribble and Gilmore had to carry the ball almost by themselves.

What put New Castle in the hole in the final period was a swell kick

by Keryan to the 2-yard line. New Castle found the going tough and Gribble kicked to Farrell on the New Castle 46. Emanuel Hilstock, the fleet-footed Farrell fullback, and Keryan teamed up to carry the ball deep into New Castle territory. Keryan flipped a pass to Yazvac, a sub halfback, and he was hauled down on the New Castle 6 for a 12-yard gain. Hilstock ran to the 2-yard line and New Castle was caught clipping and penalized half the distance to the goal line, giving Farrell the ball on the 3-yard line a net loss to Farrell of one yard on the New Castle penalty. Keryan ran the right side of the New Castle line and scored was looked like a mighty important touchdown considering the way the team was going with about half the final period gone. Big Nick Nicastro tried the extra point but missed it.

**Frank Merriwell Fintsh**  
New Castle got possession of the ball on the New Castle 19 on a punt by Keryan, and marched down the field with Gribble and Keyes carrying, and Gribble tossing a pass to Bob Session who lateraled to Paolone for a first down on the Farrell 46, for a 24-yard gain. Gribble, sensing the time was running out, faded back on the next play and threw a long pass that Gilmore caught on the Farrell 20 and raced like mad to the goal line to beat the gun. He made it. The game was over except for a try at the extra point by Jack McCoy, and as 10,000 fans waited with bated breath, missed the goal posts and the teams walked off the field.

**Mr. Lebanon Next**  
It was the first time since 1944 that Farrell had a chance to holler and they did plenty of that. New Castle's five straight wins over road opposition was forgotten. New Castle, favored to win by three or four touchdowns, never had much to yell about except in the dying moments of the first half when Gribble ran the ball to the Farrell 5, and New Castle got to the 2-yard line, only to meet stiffened resistance by Farrell's watch-charm line as New Castle was pushed back to the Farrell 21, giving up on downs.

New Castle will go to Mt. Lebanon next Friday afternoon for a 2 o'clock game in class AA.

### NO GAME SUNDAY

There will not be any Columbus and Indies game Sunday, apparently the teams have given up on the city championship series, as no announcement was forthcoming this week from either team.

### CAN GET FRANCHISE

City baseball teams through their managers or officers can get their franchise money back by contacting Mike Babovsky at the Peoples bank anytime after today.

### 'Canes Drive Deep But It's All In Vain

Ralph Paolone, New Castle fullback, slams into the Farrell line late in the second quarter as the Hurricane made a vain bid for a score. Although the locals worked to the 2-yard stripe they were denied the tally.

New Castle players identified in the play are Rowland, No. 46; Keyes, No. 51, and Josephs, No. 56. Farrell players shown are Hilstock, No. 5 and Petrillo, No. 96.

### Sabotin, Bell Clash Monday

Two Of Best Light-Heavies In District Are Reported In Condition

Forty-eight more hours and two of the best light-heavyweight boxers of this district, Ike Bell of Warren, clash in the main bout of Youngstown and Lallo Sabotin of an eight-battle schedule at 8:30 p. m. in The Arena. Both are reported in good condition for the Monday fight.

Bell has "prepped" at Youngstown while Sabotin trained both here and in Warren. He boxed three times during the week with Russ Baxter and Jack Biddle, local professional middleweights.

Ike has fought Bill Pozza, Elkins Brothers and others who lead the amateur light-heavyweight division hereabouts. Pozza won a close decision from him but Bell upset the dope and won the award over Brothers.

Sabotin has not been defeated. He appeared in two bouts and won easily at Flaherty field, and when broached as to a fight with Bell, replied: "Sure, he is no different to me than any other opponent." Just who is the better boxer remains to be seen Monday night. Both are equal in punching ability. Sabotin is younger than Bell, and will not graduate from Warren, O., high school until 1948.

From now until they clash they will take things easy. Pete Misto of Youngstown, a welterweight, who has had a run of success here, will be given a fight by Pat McGinley, Pittsburgh, who boxed on Pittsburgh's team against a team of Hawaiians in an international meet at Boston.

**Mike Is Rough, Tough**  
Mike Sebastian, Sharon, one of the roughest, toughest middleweights in the tri-state district, will return here against Pat Hoga of Pittsburgh, a newcomer to The Arena ring.

Four boxers who won their fights in The Arena September 29 will return Monday night for engagements. Tommy Leach, matchmaker of the Jefferson A. C. offered them a return engagement for their having won here. They are Tommy DeSantis of Youngstown, who meets Ducky Pound of Warren, at 118; Jimmie Carkido, Youngstown, who boxes Angelo Bakeris, Warren, at 130; Frankie Lentine, Youngstown, who boxes Carl Zoba, Warren, at 122, and Billy Underwood, Youngstown, who boxes Frankie Sedall, Warren, at 126.

Billy Schumde of Pittsburgh, weighing 170, will take on Jimmy Moore of Youngstown in another bout, making eight in all.

### Springdale Will Honor Joe Page

SPRINGDALE, Pa., Oct. 11.—(INS)—Joe Page, whose pitching helped the Yankees win the world series, will be honored at a dinner in his home town, Springdale, on Thursday.

A parade from Cheswick to Springdale will precede the dinner.

### Titans-Thiel Clash Today

NEW WILMINGTON, Oct. 11.—Westminster college will present football at its best when she tangles with the Thiel college eleven this afternoon, at least from the standpoint of the spectator.

The reason: installation of 1500 new bleacher seats will be completed and the fans will have a chance to watch a home game sitting down for the first time in the history of the school.

Five hundred of the seats will be erected on the visitors' side of the field and the remainder on the home side.

### Wilksburg Hi Tramples Lebanon

Wilksburg high, one of the unbeaten powers in class AA, trampled Mt. Lebanon's Blue Devils Friday afternoon, 26-0.

Mt. Lebanon, New Castle's next opponent, was completely outclassed, as the winners used a steady stream of substitutions in the triumph.

### Evans City High Swamps Shenango

Score Is 20 To 0 As Evans City Continues Toward Class B Title

EVANS CITY High's powerhouse Class B championship contenders, made it a clean sweep over the Lawrence County schools, by taking Shenango over the hurdles 20 to 0 at the Shenango High field Friday afternoon.

The Butler Countians tallied in the first period as Jack Leese the big fullback swung through tackle and raced 10 yards. The second Evans City marker came in the closing minutes of the first quarter as John Dunbar took a pass from Kohler and raced about 60 yards from the Evans City 40.

Evans City scored again in the third session as Leese after a sustained Evans City downfield drive banged his way over from the 5-yard line. Himes made two of the extra-points by placements. Shenango never threatened the Evans City goal line. Evans City previously had defeated Bessemer and Union.

### SWEET PEPPERS ADD VARIETY TO MENUS

Among the late garden vegetables which will add zest to fall menus are sweet peppers, both green and red. They will add a dash of color to meals.

Red and green peppers are a good source of vitamin A and vitamin C, also many important minerals necessary for good health. Peppers may be used in a variety of ways. They help to perk up a salad when cut in small pieces and tossed in with the greens. Red and green pepper rings or sticks are colorful for decorating salads, or the rings may be served separately on the relish plate.

Sandwich filling variety may be had by adding chopped pepper, one suggesting is chopped ham and hard cooked egg with green peppers.

Stuffed peppers, a long-time favorite, make an excellent main dish for lunch or dinner. Besides they help make the meat go further.

**Stuffed Peppers**

6 medium sized peppers (green or red),  
3 cups cooked chopped meat (chicken, veal, ham),

1½ cups cooked rice,  
1 large onion, chopped fine,  
½ can tomato soup,  
1 tablespoon Worcestershire sauce,  
1½ teaspoons salt, pepper to season.  
Wash pepper. Cut in two lengthwise; remove seeds. Parboil 15 minutes in lightly salted water. Dip in cold water, then drain. Mix all ingredients for stuffing together. Fill peppers with this mixture. The peppers may be topped with buttered bread crumbs if desired. Place in a well-buttered pan and bake in a hot oven (400 degrees to 425 degrees Fahrenheit) for ten minutes, or until crumbs are brown.

A wombat is the Australian name for one of its marsupials. It resembles in form a miniature bear or large, blunt-nosed woodchuck. The best known species is two or three feet long, plump, with a thick coat of long grayish brown, coarse, woolly hair. The head is large, flat and broad, with small eyes, the upper lip cleft. The tail is very short. It is nocturnal in its habits and feeds on vegetable substances, digging up roots with its claws; makes its abode in holes among rocks, or in burrows which it digs.

Congress, in 1946, passed the National Mental Health Act, which marked the first time in history that any nation recognized mental health as a serious problem worthy of the attention and money of its government.

Perennial plants are about three-eighths water.

## Chest Needs \$2 Per Person For Success In Drive

Such Is Estimate Advanced  
To Sustain 12 Agencies  
During Coming Year

The Community Chest dollar is divided into 12 parts and no one agency gets over 15 per cent of the total. The chest drive to succeed needs over \$2 for each man, woman and child in New Castle—\$10 average for a family of five. There are, of course, some who cannot afford to give, but the average worker can easily afford the amount needed to put the drive over the top. The person who refuses to give, or who grudgingly gives a dollar when he could give ten, is the person who makes the Community Chest goal a hard mark to reach. Fortunately, most people have a heart; they give not the least they can get by with, but an amount which they feel is reasonable for their income.

### Poor Giver Uninformed

Usually the poor giver is the one who knows least about the agencies that benefit from the chest. In an endeavor to acquaint more people with their work, the various chest agencies have arranged to hold an open house on Wednesday, October 15. Every citizen of New Castle is invited to visit the various agencies on that date.

No solicitation of any kind will be made by any of the agencies, the sole aim being to show off the buildings and work which are totally or in part supported by the chest. Only the two hospitals among the chest agencies have found it impossible at this time to throw their doors open for public inspection.

Efforts to acquaint the public with chest institutions include also daily newspaper stories of each agency and the campaign circular which contains a one paragraph description of each one's work.

Officers Of 229th  
Take Instruction

School Sessions Are Held Each  
Wednesday Night In Phases Of  
Field Artillery Gunnery

Each Wednesday evening, after their regular duties are over, the officers of the 229th Field Artillery, Pennsylvania National Guard, attended a school of instruction on the various phases of field artillery gunnery. The last school period was on the details of setting a 105 mm battery into firing position and bringing the guns into parallel by means of compass readings.

The sessions are conducted under the supervision of Lt. Col. George F. Mitchell, commander of the 229th F. A. Bn. Excellent instruction is also being given by Major Edward G. Eakin and Capt. Alfred F. Barner.

The 229th recruiting campaign is rolling right along. Any able bodied men, 17 to 35 years of age, who are interested in affiliating with the 229th F. A. are invited to come to the Cunningham Armory any Wednesday evening and discuss the matter with members of the 229th.

Naturalists Visit  
Pymatuning Dam

Find Ground Signs Of Deer, Coon  
And Muskrat; See Many Ducks,  
Canadian Geese, Herons

Owen Fox, in company with Nick Casillo, were recently at Pymatuning Dam. They were back in the location of what was formerly "old country road", now covered by water, but forbidden to the public as it is a game sanctuary.

Footprints in the boggy ground gave signs of deer, coon, and muskrat. There were thousands of black duck, Canadian geese, and blue herons on the water near by.

After exploring this area, they

went on the dry ground surrounding the lake, where they found large clumps of candle berry or wax myrtle. The Pymatuning location, says Owen, is the farthest north that this shrub grows. The ground there is thickly covered by tundra moss, or rightly called star moss.

One of the things noticeable there were quite a number of small garter snakes and young king snakes. This moss was so thick, that although there was four inches of one of these king snakes protruding from the moss, it was impossible to pull the reptile out, as the contraction plates on its body were reversed, and gripped tenaciously to the under-side of the moss.

The quail family is now rather scarce, but Owen and Nick saw three of these game birds feeding among the shrubs, not far from the lake.

There was an abundance of poison sumac berries. Folks that go to view the wonderful coloring among the leaves of trees, Mr. Fox warns, should avoid the feathery leaves of the sumac, as those clusters of dark white berries that hang down like grapes among the brilliant red leaves, should be avoided, as they are dangerous to touch, and may cause much suffering, they being poisonous to the skin.

TO DESTROY WINE

PITTSBURGH, Oct. 11.—(INS)—Federal Judge Wallace S. Gourley ordered the Pennsylvania Liquor control board of destroy 23,880 one-fifth gallon bottles of blackberry wine it had stored in Pittsburgh.

Federal agents reported the wine, from Cincinnati and Guttenberg, N. J., vineyards, contained a poisonous acid.

THREE-DECADE ASSIGNMENT

ITHACA—(INS)—A 34-year-old correspondence by mail was climaxed recently when two correspondents saw each other for the first time. Mrs. Louis S. Pickering of Ithaca met Mrs. Lillian LaBrosse of New Orleans, La., at the bus terminal here when the latter decided to take a vacation. Mrs. LaBrosse recognized Mrs. Pickering from pictures she had received.
